

NuKase™

LOCKABLE PHONE CASE

"Phone-Free Classrooms"

What is the NuKase?

The NuKase™ is a tamper-proof, shatter-resistant phone case that puts YOU back in control of your learning environment. Unlike flimsy pouches that tear and create ongoing replacement costs, NuKase is built for the realities of K-12 schools—designed to last, easy to implement, and proven to work.

How the NuKase Works

Morning Routine: Students power off their phones, place them into the NuKase, and lock it shut with a simple click. The phone remains securely inside and completely inaccessible throughout the school day.

End of Day: Students unlock their NuKase at designated unlocking stations and retrieve their phones—streamlined dismissal with no bottlenecks or confusion.

NUKASE SPECIFICATIONS

| | |
|-----------------------------|-----------------------------|
| Overall Dimensions (L*W*H): | 4.5" x 7.9" x 0.8" |
| Weight | 3 oz |
